Navi Mumbai, Maharashtra

Professional Summary

I'm a highly motivated and aspiring Data Engineer skilled in **Python, SQL**, and **data integration**. Eager to apply hands-on knowledge of **AWS, Azure, MongoDB, Power BI, Streamlit**, and **data pipeline development**. Passionate about continuous learning, **data quality**, and **performance optimization**. Ready to contribute and grow in a dynamic, results-driven environment.

Education

PG Diploma in Big Data Analytics

Centre for Development of Advanced Computing, Mumbai, MH

Feb 2025 – Aug 2025

B.Tech in Computer Engineering

St. Vincent Pallotti College of Engineering Technology, Nagpur, MH | **CGPA:** 8.13/10

Jul 2020 – Jul 2024

Skills & Interests

- **Languages:** Python, Java, SQL
- **Tools & Frameworks:** PySpark, Hadoop, Spark, Kafka, Power BI, Streamlit, Tableau
- **Cloud & Platforms:** AWS (EC2, S3, Lambda), Azure
- **Databases:** MySQL, MongoDB
- **Core Expertise:** Data Pipelines, ETL, Data Modeling, Real-time Processing, NLP
- **Soft Skills:** Analytical Thinking, Leadership, Adaptability, Team Collaboration

Projects

- **Therapy Connect** — Python, Whisper, Flask, AWS — GitHub
Therapy Connect is an AI-powered mental health platform that detects emotions from spoken thoughts and provides personalized support. It utilizes a RAG pipeline (MiniLM + ChromaDB) for context retrieval, a BiLSTM for emotion classification, and Whisper for speech-to-text transcription. Gemini 2.5 Pro generates reflective questions and final suggestions, delivering private and empathetic mental health guidance in real time.
- **Cricket Analytics and Prediction Platform** — Amazon S3, Amazon Athena, SageMaker, Flask — GitHub
Predicts cricket match outcomes and delivers performance insights using ball-by-ball data. A SageMaker model forecasts match winners; Power BI dashboard visualizes player metrics and match stats. Built with Flask and hosted on AWS. Enables fans and analysts with data-driven insights through a unified platform.
- **Furrify – A Pet Community Website** — PHP, MySQL, HTML, CSS, JavaScript
Developed a dynamic web platform enabling pet adoption, community interaction, and access to veterinary resources. Engineered core features like user authentication, adoption listings, and forums to enhance engagement and usability.

Work Experience

- **IIOT Intern – Solar Industries India Limited, Nagpur** Dec 2023 – Jun 2024
 - Analyzed plant operational data using Python, Excel, and Power BI, leading to a 15% increase in visibility of production trends.
 - Automated recurring reporting workflows using scripts, saving 25% manual effort and reducing turnaround time.
 - Identified bottlenecks in industrial processes through trend analysis, contributing to a 10% boost in production efficiency.
 - Delivered executive-ready dashboards supporting real-time strategic decisions.
- **Data Science Intern – Cluster Computing, Nagpur** Jul 2023
 - Developed 3 Streamlit dashboards and 5 Power BI reports, shortening decision-making cycles by 20%.
 - Processed and cleaned over 50,000 stock market records to enhance time-series prediction models by 15%.
 - Collaborated with a 4-member agile team to deliver weekly data deliverables aligned with business requirements.

Achievements & Co-curricular Activities

- Technical Class Representative – CDAC DBDA Mumbai (2025)
- Presented paper at ICTIA 2024 on “Furrify: A Pet Community Website Link
- Technical Lead, GDSC SVPCET (2021–2023)
